# Memories

## Elementary School

In elementary i still remember when I choosen by the teacher to read some speech in graduation or farewell ceremony, originally I only just want to spend my last day in elementary until afternoon however I got called to come to the teacher's room when I meet my teacher, I was ordered to read speech text that already been prepare as a representative for my class

# Junior High School

---

In my Junior High School there is no much about memories that I make because in that year COVID has spread, all i can remember about is how i more active and energetic dan now how boring online class because School was forced to ordered students to study at home which resulting in my decreasing ranking in class

# Senior High School

For my memories during high school, specifically about the Study Tour to Bali, it was my first time traveling outside Java, The special moment was when I visited the hotel to rest on the 5th floor and I went to the 2nd floor with a friend, suprisingly when I first came there the asmopheric feels scary like no one has been used that room for a long timemy friend and I insisted on praying there and to our surprise we heard a loud sound like somtehing falling which made me scared and felt like there was someone behind me watching, after finishing, my friend and I ran out of the room and went back to the room while telling another friend

# First Semester

## First Semester

**At the beginning of the first semester during the first class. My first friend was someone from outside Java, and when I tried speaking Javanese to them, they didn't understand my language, so that moment was a bit awkward. The start of semester 1 also made me stay up late often to complete assignments**
